Entrance Doors

Dear Customer,

We are proud to present our new composite door. We think you will agree that it has been worth waiting for. It is by a long measure, in our opinion, the finest composite door on the market today. In ten years research and development we have left no stone unturned in our quest for the perfect product.

Our approach to this was innovative and radical. The composition of the door differs from all others in its MONOCOQUE structure. This structure gives it a massive strength-to weight ratio and is protected in Europe by patent number 1766176 (Patents in the USA and Canada pending). Apart from the monocoque design there are a lot of other innovative features to this door. For instance, we have designed and manufactured a hinge exclusively for this door, so it is visually concealed unlike the more commonly used flag hinge, which is unsightly. Our glazing system with beads that look like wood is also very attractive. As is evident from the following pages, our wood grain finish is superb, due to the fact that all our tooling is made in house. In a very unique process we replicate exactly the finish of a real oak door, 100% true to the original. Another feature of the door is its excellent U value rating of 0.205 as tested by the "Lambda" testing method.

In addition to this, all our glass is triple glazed and we use edgetech warm edge seals for the lowest U value possible of 0.7 .

We are dedicated to the pursuit of excellence and service to our loyal customers. We take this opportunity to thank you for your continued support. When we say the customer is king it is not an empty platitude, - we mean it!

Profile Developments

As demonstrated below should you get tired of your door colour, it can be painted a new colour and still retain its woodgrain character. Due to the stability of the surface, paint will not crack or peel, and therefore should last for years.

The picture on the right shows a solid oak door model, from which an exact replica tool will be produced using our unique in-house tool-making facility.

This is truly a marriage of new technology and old craftsmanship producing a tool with exquisite detail.

Our classic victoria double door set is the latest addition to our composite door collection. As you can see it is beautifully proportioned and is the perfect solution for anyone looking for wide access. A pair of these doors in your home makes a real statement, they are truly impressive. We have gone to a great length to ensure an authentic look. The detail of the woodgrain is perfect, for instance we do not use a plant on mullion as used in the uPVC door which always looks like a compromise solution. No, these pair of doors are a faithful reproduction of wooden doors but of course, without the attendant drawbacks associated with wood. With these doors you just fit and forget in the sure knowledge you are guaranteed by the country's largest composite door manufacturer.

77mm uPVC Full Frame Threshold
Distance from bottom of door leaf to bottom of threshold - 48mm

57mm uPVC Low Threshold
Distance from bottom of door leaf to bottom of threshold - 28mm

Door Furniture - black, chrome, gold

Specifications

Composite	65mm fibreglass reinforced Monocoque Composite Door, Patented Design protected in Europe by patent no 1766176, Canadian and US Pending		
Door Colours	White, Cream, Red, Blue, Green, Bog Oak, Rosewood and Light Oak		
Double Rebate	Double rebate using two seals achieving Excellent draught proofing		
Single Door Slab Size	Min. 782 mm x 1855 mm Max. 910 mm x 2095 mm <i>Please Note: with low Stormguard Plus threshold, max height 2181mm, min 1942mm with low Stormguard threshold, max height 2163mm, min 1923mm With 57mm uPVC threshold, max height 2171mm, min 1931mm</i>	Single Door With Frame	Min. 878 mm x 1951 mm Max. 1006 mm x 2191 mm
Double Door Slab Size	Min. 1085 mm x 1855 mm Max. 1465 mm x 2095 mm <i>Please Note: Low Alu, threshold not available. With 57mm uPVC threshold, max height 2171 mm, min 1931 mm</i>	Double Door With Frame	Min. 1181 mm x 1951 mm Max. 1561 mm x 2191 mm
U Value rating	Door body U Value - 0.205, Triple glaze U value - 1.1, combined U value - 0.64 Solid Door U Value including frame - 0.85 / Glazed Door U Value including frame - 0.98		
Glazing beads	Designed to be removed internally		
Triple Glazing	Triple glazed units using warm edge, available in all doors. Backing glass, available as standard in Clear, Cotswold, Minister, Stippolite and Flemish. * other obscure glass available optional extra (time delay). Please note Pompeii, Carthage and Bordeaux available double glazed with Georgian bar only. All satinized triple glazed units available with clear glass only.		
Lock type Security rating	2 hook 2 shootbolt 2 roller and deadlatch PAS 23/24 APPROVED AND SECURED BY DESIGN		
Door numerals	Supply only available 0-9 Gold, Black and Chrome colour		
Warning	In the event of a door being fitted behind a Glazed Patio Door, the area needs to be well vented to prevent the excessive build up of heat.		
Hardware	High quality handle, letter plate, door knocker solid or with spyview MANUFACTURED TO BS 7412		
Hardware Colour	Gold, Black, Chrome and White		
Handle type	Lever / Lever Lever / Pad	BS 7412 and BS 1670:1998	
Hinge type	Rebated hinge available White, Caramel, Black and Cream		
PVC outerframe option extra*	70mm with galvanized steel reinforcing		
PVC outerframe & Sidelight colour	White, Cream, Red, Blue, Green, Bog Oak, Rosewood and Light Oak available using 28mm triple glazed sidelights		
Threshold	Extra strong - standard and low thresholds available		

Please note, owing to the photographic and printing process used, colour may vary from the printed brochure.

With your security and safety in mind

Fig. 1

Fig. 2

Above all we are a design and innovation lead company, and this will always shine through in the finished product.

We start with the project design then manufacture the machine we require and finally manufacture the product

Figure 1 shows the oak pattern from which the final mould will be produced.

Figure 2 shows finished door from the original tooling.

Figure 3 is a good example of bad tooling design that lacks character.

On the other hand compare this to Figure 4 which you can judge for yourself.

Fig. 3

Fig. 4

This 3D generated photo demonstrates the advantage of our unique hinge. As is evident from the above picture, this hinge is not attached to the outside of the door, and therefore enhances the appearance of the door, unlike a more conventional flag hinge - as seen on the right. Double seal and rebate.

The picture above shows conventional composite doors, comprised of two 2mm skins bonded to a foam core.

To dispel any lingering doubt you may have, we have carried out our own rudimentary test using a 4x4 vehicle.

Here you see our superior MONOCOQUE structure and the advantage it holds over its competitors as demonstrated on the opposite page.
